# OFA Presents

.....

Welcome to **OFA Presents**, Harvard's vibrant visiting artist series produced by the Office for the Arts. Our programs are designed for undergraduates, and are free and open to all students—and often to the larger community. By offering diverse genres and voices in the arts, the OFA supports the exploration of artmaking, creativity, community building as well as professional and intellectual inquiry. All are welcome!

.....

**ArtsBites** opens the floor to students for informal virtual discussions with artists.
